PROFESSIONAL SUMMARY

Data and QC Analyst with 8+ years turning large, high-volume datasets into accurate, decision-ready information. Currently lead quality control and data analysis for FMCG product data at Numerator India, using SQL, Python (Pandas), and Power BI to catch errors before they reach clients and to give management clear visibility into quality trends. Built this analytical discipline on a foundation of aviation regulatory compliance, where I audited technical records against strict industry standards — an early grounding in accuracy under scrutiny that now shapes how I approach every dataset.

SKILLS

Data & Analytics: SQL, Python (Pandas, Seaborn), Power BI (DAX), MS Excel (Advanced), Google Sheets, Bash Scripting

Quality & Compliance: Data Validation & Analysis, QC & Assurance, Audit of Technical Records & Manuals, Regulatory Compliance

Aviation M&E Software: TRAX, STREAM, AMOS, AIRVAULT, GOASPEN

Productivity: MS Office (Word, Excel, PowerPoint), Google Docs & Slides

Professional Strengths: Team Leadership, Training & Mentoring, Process Documentation, SME Knowledge Management, Cross-Functional Communication

WORK EXPERIENCE

Senior QC Data Analyst | Numerator India Private Limited | Vadodara, Gujarat *June 2021 – Present*

- Analyze large-scale FMCG product datasets across US and Canadian markets using **SQL** and Python (Pandas) to identify coding errors, trends, and anomalies ahead of client delivery, serving concurrently as SME, QC Lead, and Trainer.
- Design and maintain **Power BI** dashboards to track QC accuracy trends, team throughput, and error patterns, giving management real-time visibility into quality performance.
- Conduct structured quality checks and data validation against a formal daily target of **300+ reviews**, consistently meeting and exceeding accuracy benchmarks across all QC cycles.
- Extract, clean, and analyze review data using SQL and **Advanced Excel**, and apply Python and Bash scripting to automate recurring data checks and flag discrepancies before they reach clients.
- Design and deliver **training** sessions and QC calibration meetings; develop and maintain all process documentation for the team.
- Act as primary point of escalation for complex coding queries and edge cases across US and Canadian FMCG categories.

Data Classification Associate | Numerator India Private Limited | Vadodara, Gujarat *Sep 2020 – June 2021*

- Coded FMCG products across US and Canadian retail markets on the Numerator platform, classifying by retailer, product usage, store location, price point, and **consumption patterns** — building the taxonomy expertise that later formed the basis of SME responsibilities.

Technical Records Engineer | FLYdocs India Pvt Ltd (Lufthansa Technik AG) | Vadodara, Gujarat *Aug 2017 – June 2020*

- Audited aircraft maintenance records — including **Airworthiness Directives**, Service Bulletins, and STCs — against strict regulatory standards across multiple aircraft types, the foundation for the accuracy discipline applied in later data roles.
- Reviewed and migrated technical documentation onto the FLYdocs platform, and managed acquisition/disposal record packages using **TRAX, STREAM, AMOS, GOASPEN, and AIRVAULT**.

IELTS Trainer | Antonio Academy | Cochin, Kerala *Feb 2014 – Sep 2014*

- Delivered English language and interpersonal skills training for IELTS preparation between undergraduate studies and the MSc programme.

PROJECTS

Delhi Metro Network — Exploratory Data Analysis (Pandas/Seaborn) |

github.com/abhijith-surendran-9746/Pandas_Delhi_Metro_project

- Performed end-to-end EDA on a 285-station, 13-line Delhi Metro dataset using **Python (Pandas)** and Seaborn — data cleaning, feature engineering, and visualization to identify and fix real data-quality issues in the raw data.

EDUCATION

M.Sc., Aeronautical Engineering

2014 – 2016

University of South Wales, Wales, United Kingdom
